Report Near Misses!

No use crying over milk almost spilt? Yes there is!

There's a lot of good that can come from reporting near misses. A near miss is a mishap (accident) that would have happened had conditions been just a little bit different. By reporting near misses, and implementing controls, we can prevent a recurrence and thus prevent mishaps. That means, preventing death, injury or material damage. You can be a big part of the solution by informing your supervisor when something ALMOST bad (a
